About Me

I am a motivated and enthusiastic B.Tech 2nd year studentwith strong communication, organizational, and problem-solving skills. Alongside my academic journey, I have completed certifications in communication, presentation, and soft skills, which have prepared me to interact effectively in professional environments. My growing knowledge in IT fundamentals and artificial intelligence, combined with proficiency in Microsoft Office, enables me to adapt quickly to modern workplace tools. I am eager to learn, contribute, and build a successful career in customer service and technology-driven roles.

Work Experience

As a fresher, I do not have formal work experience yet. However, have developed practical skills through academic projects, training programs, and certifications that focus on:

- Communication and presentation
- Career guidance and resume writing
- Business etiquette and professional conduct
- IT foundational skills and accounting basics
- Artificial Intelligence overview and digital literacy
